

Note 1: This detail may also be used on parapet walls.

Note 2: A 1/4 in. (6 mm) gap is required between sections of vinyl Fascia Bar. A 1 in. (25 mm) gap is required between sections of vinyl Fascia Cover.

Note 3: Joints in vinyl Fascia Bar must be offset by a minimum of 12 in. (305 mm) from joints in the vinyl Fascia Cover. Use Fascia Clips to cover each vinyl Fascia Cover joint.

Note 4: All vertical applications require the membrane to be backsealed and approved caulk to be applied on both sides of the Fascia Bar.

Note 5: The Fascia System is not to be used as a gravel/water stop. Fascia System and caulk must be located below roof line.

Note 6: Refer to General Requirements for wood nailer requirements.

Note 7: Refer to specifications for vapor barrier, insulation, and cover board requirements.
