

Note 1: Water must not be allowed to pond within pitch pan. Ensure that approved self-leveling sealant is level with top of curb. Cover with approved caulk to slope to outside of pitch pan.

Note 2: Use approved fasteners to secure hidden flange as per respective zone the pitch pan is located within (field, perimeter, corner).

Note 3: Mechanical lines must have a minimum of 1/4 in. (6 mm) clearance between objects or pitch pan edges.

Note 4: All field welds must be a minimum of 1-1/2 in. (40 mm) wide.

Note 5: Refer to specifications for vapor barrier, insulation, and cover board requirements.
