

- Note 1: This detail can only be used on parapet when termination over the parapet edge is not permissible or possible.
- Note 2: Skirt must meet the mil thickness necessary for the desired warranty term.
- Note 3: All field welds must be a minimum of 1-1/2 in. (40 mm) wide.
- Note 4: Strip Mastic must be within 1/2 in. (13 mm) of outside parapet edge. Ensure that Duro-Edge covers Strip Mastic.
- Note 5: Membrane fastening at parapets must be same as per respective zones that area is located within (field, perimeter, corner).
- Note 6: A 1/8-in. (3-mm) gap is required between sections of Duro-Edge.
- Note 7: Each section of Duro-Edge must have an approved fastener and 3-Inch Metal Plate fastened within 1 in. (25 mm) of each end.
