

Duro-Last® membranes
 Duro-Guard® fan fold
 Approved insulation (Note 2)
 Existing metal roof

Duro-Last membranes
 Duro-Guard fan fold
 Approved insulation (Note 2)
 Existing metal roof

- Note 1: Duro-Guard fan fold may be used over flute filler on a metal roof if span between flute filler and flute does not exceed 1/4 inch.
- Note 2: Flute filler must be either 1.5 lb. EPS or 2.0 lb. polyisocyanurate. Hold in place with at least 1 approved Duro-Last plate/fastener. High density wood fiberboard can not be used as flute filler.
- Note 3: The use of this detail is not a fire-rated assembly. Refer to Duro-Last's UL TGFU.R10128 for approved fire-rated assemblies.

REVISED: 03/10/2017	METAL ROOF RECOVER
PREVIOUS: 12/11/2013	FAN FOLD RECOVER WITH FLUTE FILLER
SCALE: NONE	NEW CONSTRUCTION OR RE-ROOF
