

Note 1: Use one of these options for fastening the roof system at the roof-to-wall transition when the wall flashing is mechanically fastened. See DF6010 for adhering wall flashing.

Note 2: Minimum termination height for wall flashing is 8-inches above the finished deck. See detail 6010 for tab spacing.

Note 3: For substrate options see Section 2 of the Adhered Duro-fleece Roofing System specification.

Note 4: For approved adhesives refer to Section 2 of the Adhered Duro-Fleece Roofing system specification.

Note 5: Fasten into an approved structural surface.
