

# DURO-LAST<sup>®</sup> FASCIA SYSTEM

## DESCRIPTION:

The Duro-Last<sup>®</sup> Fascia System may be used as perimeter detail for the Duro-Last roofing system and as termination on rectangular penetrations. The system consists of a bar and snap-on cover. The system has been approved by FM Approvals as a Class 1-90 perimeter flashing.

- The fascia bar is fabricated from rigid exterior vinyl with pre-punched slotted holes 6 inches (152 mm) on center. The bar is 10 feet long and available in two widths: 1.75-inch (44 mm) and 4-inch (102 mm). The bar is only available in white color.
- The fascia cover is fabricated from rigid exterior vinyl and is available in white, gray and tan colors. The cover is 10 feet long and available in two widths: 1.75-inch (44 mm) and 4-inch (102 mm). (Note: If a metal cover is needed, refer to the Metal Fascia System Product Data Sheet.)

## MATERIAL SAFETY DATA SHEET:

Product Identity: Duro-Last 10 Foot Extrusions

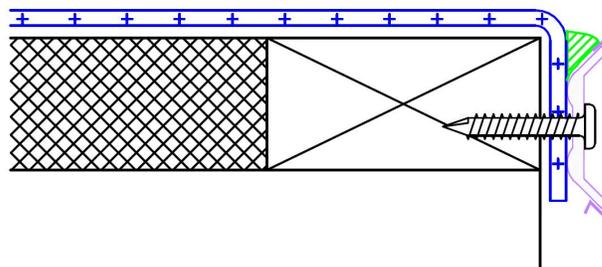

## INSTALLATION:

1. The 1.75-inch (44 mm) wide fascia bar must be fastened 6 inches (152 mm) on center, maximum.
2. The 4-inch (102 mm) fascia bar must be fastened 6 inches (152 mm) on center, maximum. The fastening may be along one row of holes or staggered along three rows.
3. It is required to leave a ¼-inch (6.3 mm) gap between sections of the fascia bar.
4. The fascia cover should be installed so that the joints between sections are offset a minimum of 12 inches (25 mm) from the joints between sections of the fascia bar.
5. It is required to leave a 1-inch (25 mm) space between sections of fascia cover.
6. Cover the gap between sections of fascia cover with the fascia cover clip.
7. Apply Duro-Caulk<sup>®</sup> Plus along the top of the fascia bar.
8. Refer to detail drawings 3030 and 3040 for installation information when roof system is mechanically attached or FA3030 and FA3040 when the roof system is fully adhered.

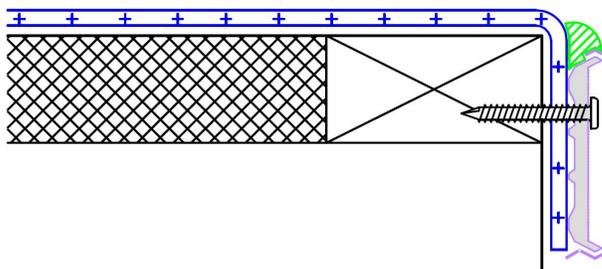

9. The fascia system may not be installed as a gravel/water stop.
10. All vertical applications require Duro-Caulk Plus be applied on both sides of the fascia bar.

## NOTE:

- Fascia bar and cover are ordered separately in 10-foot lengths. They will be packaged in cardboard tubes or boxes.
- One joint clip will be included with each length of cover. If the bar will be cut into smaller sections additional joint clips may need to be ordered.

1.75-inch (44 mm) wide Fascia System  
(Install per detail drawing 3030 or FA3030)

4-inch (102 mm) wide Fascia System  
(Install per detail drawing 3040 or FA3040)
