

ARCHED VINYL-COATED DRIP EDGE

1. Description:

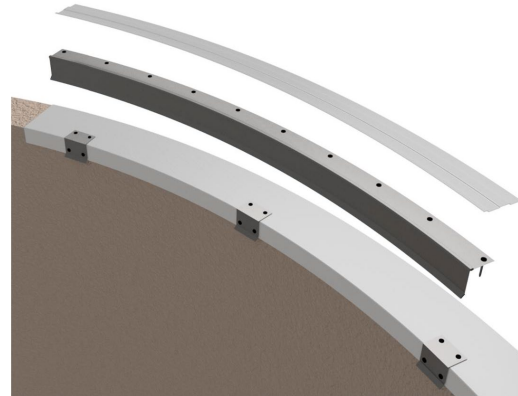

The Arched Vinyl-Coated Drip Edge provides a smooth, aesthetically-pleasing finish along arched perimeters and at arched-to-flat transitions. Vinyl-coated roof flange enables the welding of a separate skirt to both the flange and the installed roof membrane to provide a watertight seal.

- Fabricated in 5' lengths; 3"-8" face width.
- Edges are pre-notched for overlapped joints.
- Profiles can be custom-fabricated to meet most specifications.
- Hemmed drip kick to receive splice cleats.
- LEED® compliant.

INSTALLATION:

1. A wood nailer is required if 1" or greater of insulation is used. The wood nailer should be attached in accordance with ANSI/SPRI ES-1.
2. Install in accordance with Duro-Last Details 6010 and 6040.
3. Any Deviation from the requirements set forth in detail drawings must be pre-approved, in writing, by the Duro-Last Technical Department

WARRANTY:

Duro-Last offers a finish and substrate warranty.
