

- Note 1: Compatible clamping rings: WATTS B2-FLG, ZURN 56588, ZURN 29480, WADE W-3000-I-FRG, JR SMITH 3260 and JR SMITH 35400.
- Note 2: Target patch must extend beyond the inside of the clamping ring. The hole in the membrane must be larger than the drain pipe diameter.
- Note 3: The designer should consider insulating the drain components below the deck to prevent potential condensation.
- Note 4: Refer to specifications for vapor barrier, insulation and cover board requirements.
- Note 5: Target patch must extend beyond drain sump to eliminate any hot-air welding within sump. If no sump is present, target patch must extend beyond drain assembly a minimum of 12 inches in all directions. Target patch must be same mil thickness as a Duro-Fleece membrane.
